

**Get Lippy
Over Brunch**

Discussion

What was something you thought was true when you were younger, that you have now found out is a myth when it comes to gynae health?

Discussion

Did you have sex education at school that included health and gynaecological issues?

Discussion

**Have you had a cervical screening test
before? Do you know what it checks for?
How did you find it?**

Question

Do you know how many gynaecological cancers there are? Can you name them all?

Answer

There are five gynaecological cancers. Womb, ovarian, cervical, vulval and vaginal

Question

How many women and people with gynae organs are diagnosed with a gynaecological cancer in the UK every year? Is it ...
A) 10,000 B) 16,050 C) 22,050

Answer

C) 22,050 - that's 60 every single day.

Activity

**Grab your pen, it's time to label the
gynaecological organs.**

Label the diagram on your placemat.
